

PLINIUS
THE HEART OF MUSIC

TAUTORO
PREAMPLIFIER

TAUTORO

PREAMPLIFIER

With the popularity of the SA-Reference and SA-103 Class A power amplifiers, we have seen an increasing demand for systems that can reproduce music without compromise. This demand has lead Plinius to develop a preamplifier that will sit with these power amplifiers and perform in a system that will deliver the highest quality sound from source to speakers.

The new Plinius Tautoro Preamplifier takes key points from the classic Plinius design to bridge the gap from our premium power amplifiers to our source CD player and phono preamplifier. A comprehensive array of inputs and outputs allows for balanced XLR and unbalanced RCA connection to the 5 line inputs, home theatre bypass loop and dual outputs for bi-amping or multi room installations. There is also an optional phono input based on the Plinius Koru that can be added in place of one line input.

With a host of features including individual source selection, headphone output, line level source output for archiving and remote trigger in/out for integration into a semi automated system, the Tautoro delivers function and performance in true Plinius style.

As with all Plinius products, the Tautoro is available in a high quality anodised Black or Silver finish.

Specifications for PLINIUS TAUORO

Frequency Response:

20Hz to 20kHz +/-0.2dB

Distortion:

Less than 0.05% THD at rated input level

Hum & Noise:

-80dB at rated input level, A weighted

Input Sensitivity For Rated Output:

125mV RMS Unbalanced inputs

62mV RMS Balanced inputs

Input Impedance:

50k ohms

Rated Output Level:

500mV RMS into 10k ohms or higher

Output Source Impedance:

Typically 100 ohms

Optional Phono Input:

RCA Unbalanced input

Adjustable Gain:

50dB, 56dB, 60dB, 66dB

Adjustable Load:

47k, 470R, 100R, 47R, 22R

Frequency Response:

+/-0.2dB 20Hz to 20kHz, within RIAA spec

Signal to noise ratio:

-80dB wrt 5mV input, A weighted

Distortion:

Less than 0.01% THD at all levels below clipping.

Dimensions:

Height:	160mm	(6 3/8")
Width:	445mm	(17 1/2")
Depth:	475mm	(18 3/4")
Weight:	16kg	(35.3lbs)
